February 2014 Newsletter

The February Fly-in Breakfast was held on the 15th of the month with thirty-one planes flying in and fifty-three breakfasts served plus a few people paying their \$5 for unlimited tea or coffee.

Doug and Billy have done an excellent job as usual in mowing the strip and the “Village Green.” Thanks to all the other members and guests who helped with the breakfast, both with the serving and the packing up.

Runway 33 was the go on the day. The weather, especially the wind, was not as bad or as strong as forecast – with this writer being able to make a relatively stabilized and smooth final approach – something not always achievable at Straddie. Certainly the morning was not as hot as forecast.

Doug and Joan, ably assisted by Billy, continued with their expert cooking of the eggs, bacon and sausages, which month after month remain at the same mouth-watering standard – juuust right.

Thanks also to Pat and Rod for their always refreshing fresh fruit platters. The rock melon and water melon slices in particular are always an excellent start to the breakfast.

Breakfast Aftermath...

Tony with our visiting washer-uppers, Allan and Paolina.
